To Whom it May Concern:

It has been a pleasure to work with Walker Young who has served as a caring and competent program assistant throughout the summer. North Bridge Academy provides comprehensive academic intervention to students with dyslexia and other related learning differences. Our summer program delivered intensive academic instruction to students who have experienced challenges in their learning throughout the school year. Giving up a portion of their summer vacation is a big ask for young students, yet Walker's presence and encouragement helped make this summer both productive and fun.

Walker's responsibilities included parent communication during transition times, supervision of children, classroom learning support, and administrative tasks to ensure the smooth management of our classes. Walker showed a high level of professionalism and maturity throughout the summer both in her interactions with the teachers and children. She quickly became a favorite with the students and was equally appreciated by the adults given her strong work ethic and friendly demeanor.

Most importantly, Walker showed up every day to help redirect students and to keep them focused on their work. When a student was discouraged, she offered the right amount of support and guidance. Her belief that they could be successful as well as her consistent ability to notice students who were steadily working as expected helped promote a safe and resilient learning environment.

There is no doubt that Walker has a positive future ahead of her. I wish her luck in her academic and professional pursuits and am pleased to offer a recommendation for her as she enters her final year of high school.

Kind Regards,

Priya Tjerandsen
